Mrs M D Kitukale : Principal, Pataldhamal Wadhwani College of Pharmacy, Yavatmal

Title: Current Trends in Pharma Industry.

Guest Lecture commenced with the Saraswati puja. Adorable Principal Prof Dr A V Chandewar gave his view on the topic changing trends in Pharma industry & made students aware of understanding the global need to adopt changes in Pharma trends. Mr Girish D Darwhekar Lecturer introduced the speaker, Mr Rajesh M Argulwar, Assistant Manager, Drug Regulatory Affairs (US Market), Alkem Laboratories Ltd Mumbai. His talk was mainly a comparison of the western and Indian scenario of pharmacy education and research. He commenced the talk with an article titled “**Current Trends in Pharma Industry**” which he had published based on his research and industrial experience in the Alkem Laboratories Ltd Mumbai during his tenure. He discussed various strengths and weakness of our Indian pharmaceutical education system major of which was the vast curriculum which seemed to be a benefit and flaw at the same time. He emphasized the fact that though the syllabus will cater students aspiring for all fields, at the same time by the end of the UG course it could pose burden to who have limited future plans. He suggested the western approach of elective and selective courses in final year as a solution to the same. He also advised to include phycology into the curriculum so as to mould the students into better human beings before being good professionals. In terms of research, Mr Rajesh M Argulwar appreciated the intelligence and active foreign participation of Indians but pointed out the major drawbacks in Indian

manpower as lack of inclusiveness and multi-discipline integration. He provided the audience with a valuable philosophy of focus as to increase one's performance. He concluded the talk by igniting a necessity of pharmaceutical students to bring in new approach for human welfare rather than just sticking on and modifying the existing ways of survival in the field.

The Guest lecture was concluded with the felicitation of Mr Rajesh M Argulwar & Vote of thanks by Mr Girish D Darwhekar.
