The Parents meet-2018 was officially inaugurated on 19/11/2018 on 1.30 pm in seminar hall by the hands of Principal Prof. Dr. A. V. Chandewar & Chairman of Parents meet 2018 Miss. M. D. Kitukale. Mr. G. D. Darwhekar introduced the detail of organizing the Parents meet 2018 in the college to all the parents. Prof. Dr. A. V. Chandewar explained the objective & final goal of the program. He also explains Vision mission, Infrastructural details, Achievements and goals of the institute.

Our goal is to build a relationship with the student and with the family. As your student develops a sense of trust in us and the college environment, they learn to separate from you with confidence knowing you will return at the end of the college day. We respect each person's need to experience the separation process in his or her own way, and are here to help the student express their feelings as they build meaningful relationships with us. We believe that when a student's social and emotional needs are met, he or she can participate fully in the wide range of learning opportunities here at college. Student will become familiar with the routines of a classroom environment and benefit from gaining a sense of what it is like to be part of a larger group.

Our curriculum goals are based on the following beliefs:

- Student need large blocks of uninterrupted time to explore activities and conquer new skills.
- When student learn make-believe, they use their imaginations, and develop creativity.
- Student develops small motor skills by practical's

Participating as part of a classroom community:

- being respectful of others and property
- sharing information
- listening

Developing social competence:

- building relationships with peers and teachers
- entering and sustaining play

Developing early Communication Skills:

- expressing feelings and ideas
- making attempts at writing

Our goal is to build a sense of community and trust between student, parents, and staff.
